AUTOLOGUE.COM

SBC's mission is to provide business systems and processes to allow our user companies to be the most efficient and best-managed companies by delivering the best software to handle their business needs, offering IT and business consulting services, and responsive customer service and training.

FEATURES

Powerful

Windows-based POS Management System with powerful scalability – from one to 1000 locations, plus the capabilities to operate on the cloud, main server, or distributed systems in each location. A feature-rich system with the depth of years of growth and development, it is a system for today's users.

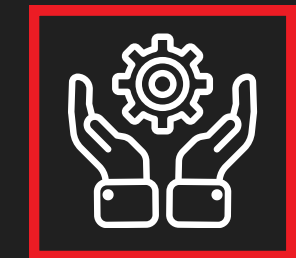

Customizable

SBC CounterControl has familiar Windows navigation using a keyboard, mouse, and touchscreen. The system has a customizable "store setting" that allows you to run your business the way you want. Combined with ease of use and flexibility, the SBC supports every facet of your business.

User Friendly

SBC provides unmatched customer service to businesses in the Automotive Aftermarket and architectural paint industries with multiple locations, large inventories, and varied pricing structures. Our true MS/Windows platform, cutting-edge technology, and customized applications are seamlessly integrated and backed by dedicated support.
