

FLEXIBLE POS SOFTWARE FOR PAINT AND DECORATING RETAILERS

OUR MISSION

Our mission is to provide easy to use business management software that enhances efficiency and profitability.

SCAN

Trusted by...

Powerful, Scalable & Accessible

SBC is a powerful Windows-based Business Management System that supports businesses operating from 1 to 1,000 locations. Whether hosted in the cloud or on a server at your place of business, easily and securely access Point of Sale, Inventory Control, Purchasing, Accounts Receivable, Business Intelligence, and much more from anywhere!

Customizable

When customization is necessary, our in-house US-based development team has over 75 years of combined experience working closely with our clients to develop best-in-class solutions that solve real-world problems.

User Friendly

Easy navigation via mouse, keyboard, or touchscreen provides end users with options to utilize the software in the manner that is most comfortable for them.

Unparalleled Support

When questions arise, our US-based support team is easily accessible. We have many years of experience helping our clients solve mission-critical problems by leveraging the breadth and depth of functionality that SBC offers.

Efficient

Built upon industry specific best practices, SBC is proven to provide efficient process flows out of the box.

Configurable

While we strive to implement standardized best practice processes, we recognize that every business is different. Considering this, SBC offers the unique ability to tailor screen layouts and process flows to suit your specific needs.
